

H14 chain

ART00525

FEATURES

- **Links:**
 - Made of steel and high resistance manganese alloy.
 - Nickel plated to make them highly resistant to rust.
 - Hexagonal shape.
 - Diameter: 14mm.
- **Lengths:**
 - Available in two different lengths: 1.20m and 1.60m.
- **Other features:**
 - Includes cover made of resistant black nylon.
 - Excellent flexibility.
 - The last link is longer than the rest to make it easier to fit the IFAM's high security padlocks.
- **Packaging:**
 - Cardboard display coating.
