

Série Platinum M

CARACTÉRISTIQUES

- Profil:** - Européen.
- Sécurité:** - Double protection anti-cassure par pont renforcé et par système Anti-Snap.
 - Double protection anti-bumping à double goupille et double ressort.
 - Double protection anti-perçage: barres de protection à l'avant et sur le tambour.
 - Protection anti-crochetage.
- Corps et composants internes:** - 6 goupilles durcies permettant des milliers de combinaisons.
 - Fabriqué en laiton extrudé.
 - Ressorts en acier inoxydable.
 - Finitions en laiton et nickel mat.
- Came:** - Disponible avec came longue (15 mm) et came court (13,2 mm).
- Types de cylindres disponibles:** - Avec ou sans fonction débrayable.
 - Demi-cylindres
 - Cylindres standards
 - Cylindres à bouton
 - À axe réglable
 - À languette réglable (pour barres antipanique)
 - À came réglable
- Clés:** - Clé à points de sécurité permettant des milliers de combinaisons.
 - Fourni avec 5 clés.
 - Fourni avec une carte à code de reproduction pour réaliser des copies de clés ultérieures.
 - Clé compatible avec : cylindres série M+/F6S + Anti-Snap et série M/F6S ;
 cadenas Huno 80 ; verrous CS88 et CS88 LV.
- Présentation:** - Boîte (individuelle et de groupe).
 - Blister.

SERVICES

- Service clés s'ouvrant.
- Service organigrammes.
- Service de clés numérotées.
- Solution clé unique.
- Kit de montage (spécial pour serruriers).
